

THE MOST SUSTAINABLE AND ENVIRONMENT FRIENDLY PROCESS FOR THE PRODUCTION OF OFFSET PRINTING BLANKETS USING “ZEROSOLVENT TECHNOLOGY”

*Acoprint is a complete range of
blankets manufactured by Acoma
Meticulously controlled manufacturing
process and superior dimensional stability*

*Exceptional consistency
from batch to batch*

*Precisely microground and polished
surface with excellent printing results*

*Superior quality of compressible layer
(closed cells) thanks to an innovative
and unique production process*

Extended durability

Outstanding price/performance ratio

100% Solvent-free production:
The true “green blankets”

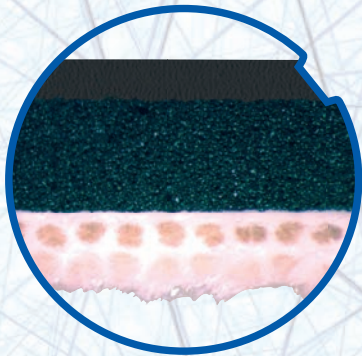

**Innovation
and tradition**

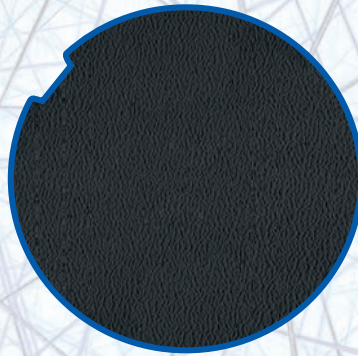

Application fields: corrugated board on sheetfed presses

Resistant to conventional inks

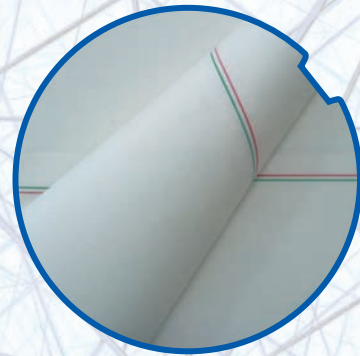

Low stretch carcass and available in 2,07mm

TECHNICAL DATA

<i>Colour</i>	<i>Graphite Gray</i>
<i>Construction</i>	<i>2 fabric layers</i>
<i>Compressible layer</i>	<i>Closed cells</i>
<i>Nominal Thickness</i>	<i>2,07 mm</i>
<i>Thickness range</i>	<i>2,05 ÷ 2,09 mm</i>
<i>Roughness Ra</i>	<i>0,5 ÷ 0,7 µm</i>
<i>Surface Hardness</i>	<i>65° Shore A</i>
<i>Hardness (total)</i>	<i>60° Shore A</i>
<i>Tensile Strength</i>	<i>> 75 Kg/cm</i>
<i>Elongation at break</i>	<i>< 4,5%</i>
<i>Compressibility</i>	<i>10-20 Kg/cm² at 0,50 mm deformation</i>
<i>Application fields</i>	<i>Corrugated board on sheetfed presses</i>
<i>Identification lines</i>	<i>Red+green</i>
<i>Ink compatibility</i>	<i>Resistant conventional inks</i>
